

MEMONEW JERSEY STATE DEPARTMENT OF ENVIRONMENTAL PROTECTION

TO Diamond Head Oil File

FROM Neil Jiorle DATE 23 SEP 1985

SUBJECT _____

In April 1985, Cathy Grimes, a student training with SEU was making contacts with various state and local agencies in an effort to gather information for a preliminary assessment. She advised me that the only available information was being sent to her by the N.J. Department of Transportation. There was no information available from any of our usual sources.

On April 22, 1985, SEU personnel and files were relocated from 1911 Princeton Avenue to 65 Prospect Street, Trenton. During the move, it is believed the information we received from NJDOT was lost.

At this time, Helen Kornitas, HSMS IV, is resuming the effort to complete the PA on Diamond Head Oil.
